DES MOINES GIVES SENATOR JOHNSON HEARTY WELCOME

Makes 2 Addresses Before Great Audiences Against League

BORAH GOES TO WASHINGTON

DES MOINES, Sept. 15.—Vigorous objection to the approval of the peace treaty and the league of nations covenant by the senate without amendments which protect every interest of the United States were voiced by Senator Hiram W. Johnson of California here tonight in two addresses. Senator William E. Borah of Idaho was to have spoken with Senator Johnson but he sent a telegram from Chicago stating that he had been called back to Washington to participate in the senate debate on the peace pact.

Senator Johnson was the guest of the Grant Club at 6 p. m., where he made a brief address. His principal address was delivered later at the Coliseum, arranged under the auspices of the League for the Preservation of American Independence.

Senator Johnson was obliged to cancel his engagements for Sioux City, Iowa, Sept. 17, because of inability to make railroad connections and substituted Lincoln, Nebraska for that date.

"We fought a righteous war and won," Senator Johnson said. "With our might and our treasure we determined to destroy ruthless militarism and it was done. In the peace we would make it impossible for this monster ever again to threaten the world.

"The victory for the United States should mean the triumph of our loud trumpted ideals for civilization, for the rights of small nations, for self-determination, for democracy. It means for England, France, Italy and Japan huge territories, vast numbers of people, immense national gain. The burden must be borne of protecting and safeguarding these enormous allied gains.

"The question is, and the league of nations squarely presents it, who shall bear the burden Shall the burden rest upon the gainers, those who made a mock of self-determination of the rights of weak peoples, of all our high sounding idealism, or shall the burden, at the command of one who was a party to the mockery be thrust upon the only non-profiting nation, the United States.

"The sole reason, whispered in fear, or ominously hissed to create fear in the rest of us why the United States should become the world's guarantor and underwrite the rape of China and the partition of hundreds of thousands of square miles of territory and the transfer of millions of human beings to England, France Italy and Japan is that by doing so the possibility of future wars would be minimized and there may be a greater sence of security in the possession by England, France, Italy and Japan of their newly acquired peoples and territory.

"But this argument in its last analysis means that the United States power and treasure and blood will do for England, France, Italy and Japan what otherwise they would be compelled to do for themselves. It means that the great democracy of the world—our country—must not only continue a party to the denial of weaker peoples' rights whenever they are asserted but to our diplomatic deniel we will add denial economically and by force of arms too.

"Great Britain proudly contemplates out of this peace a British world. Shall we, who neither ask nor get anything from the peace guarantee this British world with our wealth and our man power? France and Italy and Japan emerged with territories beyond the wildest dreams of their statesmen and it is demanded that America shall underwrite all their immense accessions.

"The United States will play her proud part in the world in the future as she has done in the past—a part prouder because based upon American principles and American ideals. It did not require secret treaties and stealthy bartering of unwilling peoples to make our nation play her part in the war; it does not require the guaranty of secret treaties and bargaining and bartering of unwilling peoples to have the nation play its part after the war."

Gompers Makes No Comment On Strike Situation

WASHINGTON, Sept. 15.—Samuel Gompers, president of the American Federation of Labor returning to his office at the federation headquarters went over the situations arising from the police strike in Boston and the proposed nationwide steel workers' strike on September 22, but refused to comment on either.

There were indications at the close of the day, however, that the labor chief was making every effort to obtain from heads of the steel workers' unions consent to call off the proposed strike and to await the industrial conference, called for October 6th, by President Wilson, before taking action.

The work of Mr. Gompers was seen in the decision of the United Mine Workers in convention at Cleveland to support a movement to delay the steel workers walkout. In requesting that the mine workers make this decision Mr. Gompers forwarded a letter from [illegible] Johnson of the International Machinists' association, favoring postponement of the strike. As the steel workers will hold a meeting on Wednesday in Pittsburgh to discuss plans for the strike, it was suggested in some quarters that President Gompers was endeavoring to influence these workers thru their affiliated unions.

At federation headquarters today it was said that the steel situation was particularly delicate from a labor standpoint, in that strikes can only be called or settled by the unions directly involved. Labor federation officials have no power to take any action or issue any orders, tho they may give advice and assistance and this may be particularly influential. Mr. Gompers activities are consequently only taken in his capacity of adviser, and the frequent representations that the strike is being called off by him, it was said, caused considerable embarrassment.

Race Riots Occur In New York

NEW YORK, Sept. 16.—One negro was killed, two injured, and a patrolman assaulted in a fight between negroes and whites which broke out early this morning (Tuesday) at 135th street and Lenox avenue, in the heart of the negro section of this city. Police reserves were summoned from four stations.

26,000 Italian Soldiers Are Now In Fiume

PARIS, Sept. 16.—Twenty six thousand Italian troops are now in Fiume according to the latest advices to the Italian peace delegation here. The British and French troops have left the city, lowering their flags at D'Annunzio's request.

The Italians are being reinforced constantly by deserters from the regular organization. It is feared in general conference circles that the Nitti government may fall because of the premier's denunciation of D'Annunzio.

Signor Tittani, minister of foreign affairs is returning to Italy tomorrow.

The supreme council decided today to let Italy deal with the situation created at Fiume by D'Annunzio's occuption of the city, deeming it purely an internal matter.

Representatives of two of the great powers, however, urged the necessity of settling the Fiume question with the least possible delay in order to prevent similar incidents.

As the American peace delegation was reported to be without precise instructions from Washington, no final decision was reached today by the supreme council as regards a settlement.

OUT OF A JOB.

New York, Sept. 15.—Thousands of ship yard workers who quit work in Brooklyn, Staten Island and New Jersey yards last Saturday noon in an attemot to enforce a demand for a Saturday half holiday, found themselves discharged whe nthey reported for work today. The discharged workmen have started picketing at some of the yards.

WILSON QUOTES SENATOR LODGE IN PORTLAND SPEECH

President Entirely Concurs With Statement Made in 1915 Address

GETS OVATION FROM CITIZENS

PORTLAND, Ore., Sept. 15. Quoting from an address made in 1915 by Senator Lodge, chairman of the foreign relations committee suggesting that nations must unite as men unite to preserve peace, President Wilson told a Portland audience tonight that the league of nations covenant carried out what Mr. Lodge had suggested.

"I entirely concur in Senator Lodge's declaration," the president said.

When the president went from his hotel to the Auditorium for his night speech he again rode thru crowded streets and was cheered as he passed. The audience stod up and applauded for three minutes when he entered the hall. Led by Mayor Baker they then sang "The Stars and Stripes." The cheering broke out afresh when the mayor presented a bouquet of roses to Mrs. Wilson.

B. M. Irvine, the editor of the Oregon Journal, introducing Mr. Wilson was cheered when he coupled the names of the president and former President Taft in a plea that there must be atonement for the Americans dead in the war. Declaring the president was in "house of his friends," Mr. Irvine asserted that Oregon stood "ten or twenty to one" for the league of nations.

The president began his address by saying he had been much impressed during his trip by the number of children who came out to see him. It was really the children, he continued, that he wanted to reach.

"I have come," he said, "to report as to the safety and honor of the future generaions of America."

Should there be no permanent guarantee of peace, Mr. Wilson said, then the nation not only would be untrue to its promises to those who won the war, but would also be recreant in its duties to the mothers of the country.

Asserting he had found few men opposed to a league of nations, the president said the great objection seemed to be to this particular league.

He recalled his conference with the foreign relations committee on his first return from Paris and said every suggestion for improvement made by the committee members had been written into the covenant.

One of these suggestions, he coninued, was that the Monroe Doctrine be protected. He asserted that not only had the doctrine been specifically reserved to administration by the United States, but it had been extended to all the world. At the behest of the United States, he added a provision also had been put in giving the members the right to withdraw.

Most of these suggestions the president said had come from Republican sources.

Saying he meant no disrespect to the league opponents, Mr. Wilson added that he had no respect whatever for some of them. The president asserted that a very few men were proposing that the covenant be changed to give the United States "a position of special privilege."

That, he asserted, was directly contrary to American principals because the nation had entered the war largely to fight for the principal of equality of nations.

The presidential party left late tonight for San Francisco.

CASE APPEALED

In the circuit court the case of Powers-Begg & Co., vs. Walker D. Hines and the Chicago, Burlington & Quincy R. R. has been taken on appeal from a justice court, where damages were assessed against the road. Wilson & Butler took the appeal on behalf of the Burlington.

GOES TO TEACHING WORK IN DAKOTA

Miss Frances Tuite has gone to Moline for a few days visit with her aunt, after which she will go to Milnor, North Dakota, where she will teach in the high school. Miss Tuite was at Milnor last year and receives a substantial increase in salary.

Story Defends The Carranza Government

WASHINGTON, Sept. 15.—Statements issued by the League of Free Nations associations to counteract what the organization has charged to be a plot to force intervention in Mexico were largely based on information received from George F. Weeks, publisher of the Mexican Review, a Carranza organ, L. I. Debekker today told the senate foreign relations subcommittee investigating the Mexican situation. Debekker is a member of the league's committee on Mexico and previous witnesses testified he was the author of the literature sent out by the league for publication. Admission that he received his information as to conditions in Mexico from Weeks was made by Debekker during cross-examination by Chairman Fall and Senator Brandegee of the sub-committee. They also brought out that Debekker based his charges of an organized movement to force intervention on newspaper reports, but further questioning resulted in the statement that none were at hand, but he would "subscribe to a clipping bureau" and get the "evidence" desired.

Debekker defended the Carranza government and said that he believed Carranza was giving Mexico a better government than the United States could. He also asserted that worse things had happened in the United States than had occurred in Mexico.

Later cross-examination brought from him that outside of information gained indirectly his only knowledge of Mexican conditions was obtained last spring during a six weeks visit, four weeks of which were spent in Mexico City and the other two in travelling about the country as the guest of President Carranza and accompanied by Minister of Finance Cabera.

Members of the sub-committee and the witness clashed repeatedly. Finally Debekker raising his voice declared:

"I believe there is a plot against Mexico. I believe that the president of the United States knows who is behind that plot. No amount of questioning can shake my position on that point."

Committee To Decide Steel Strike Problem

PITTSBURGH, Pa., Sept. 15.—Whether the strike in the steel industry called for next Monday will be deferred until after the industrial conference summoned by President Wilson to be held at Washington, October, 6, will depend upon the action of the National committe for organizing iron and steel workers meeting here on Wednesday. Labor leaders here said they were not sure that the wishes of President Wilson, who desires the postponement of the strike, will be carried out. It all depends upon reports to be made at the meeting, one said.

M. F. Tighe of Pitteburgh, president of the Amalgamated Association of Iron, Steel and Tin Workers, said tonight he had not received a letter from Samuel Gompers, president of the American Federation of Labor, enclosing the proposal of President Wilson that the walkout be postponed. Mr. Tighe said the result of the meeting is "problematical." He said it might be difficult to convince the national presidents of unions affiliated in the steel industry composing the national committee, because of conditions surrounding the workers. Companies continue to discharge men for organizing or presenting wage scales, he declared.

It is said here that President Wilson's telegram asking for a postponement of the strike was received after the national committee had decided to call the steel workers out. The fact that this telegram came after the action, will, it is said have strong weight among union leaders to reconsider the decision reached at Washington last week.

In the meantime, preparations for initiating the strike are going forward according to William Z. Foster, secretary treasurer of the national committee. There will be a conference of organizers tomorrow in preparation for the meeting of the national committee on Wednesday.

OPENS MEETING

Baltimore, Sept. 15.—The sovereign grand lodge Independent Order of Odd Fellows opened its annual meeting here today in connection with the centennial celebration of the order which was founded in Baltimore. The affiliated branches of the organization began their yearly sessions at the same time.

GERMAN PEACE TREATY CALLED UP IN SENATE

Little Actual Work on Pact is Expected Until Next Week

SHERMAN TO TALK TODAY

WASHINGTON, Sept. 15.—The German peace treaty with its league of nations covenant was called up today in the senate but plans of the senate and individual senators were considered as precluding any actual work on the pact until next week.

While the treaty was put before the senate to be considered continuously until ratified or rejected there apparently was no disposition to speed it along until after the Pershing ceremonies on Wednesday and Thursday. Senator Sherman, Republican, Illinois will take up most of the time of the session tomorrow with an attack on the league covenant and Senator Reed, Democrat, Missouri, who has been speaking in the west against it will speak on Friday.

The reading of the treaty by section is not expected there to begin until Monday. The league covenant comes first, and right at the beginning almost is the amendment by Senator Johnson, Republican of California, which would give the United States the same voting power as Great Britain.

Much time in considering this amendment is likely to be taken, as nearly everyone on the Republican side, it is said, desires to express opinions regarding it. It was suggested that Senator Johnson, on a speaking tour, might return in time to take personal charge of the fight.

After Chairman Lodge had formally called up the treaty today he presented a printed text of the treaty with Austria, supplied him by a Chicago newspaper and obtained unanimous consent to have it read. Senator Hitchcock of Nebraska, who as ranking Democratic member of the committee will conduct the administration fight for ratification made vigorous objection to this procedure, declaring it "a mere squandering of time."

"To have that treaty read, with a dozen senators listening, would be flying in the face of public demand for speed," Senator Hitchcock said, in appealing to Senator Lodge to have the document printed and let it go at that This Senator Lodge agreed to do saying he was prepared to ask leave to print the treaty before Senator Hitchcock had spoken, realizing that it would require more than a day to finish the reading.

There were two speeches today for ratification by Senator Jones, New Mexico and Senator Overman, North Carolina, Democrats. Senator McCumber, North Dakota, a Republican member of the foreign relations committee who refused to sign the majority report against the treaty, filed an individual report opposing all amendments and urging modification of drastic reservations.

When the senate begins real work on the treaty it will be taken up every day at 2 o'clock. Its consideration cannot be set aside to take up other legislation, except by majority vote. Senators, however, were agreed today that no attempt would be made to delay it, because of the general desire to dispose of it finally without any waste of time. How soon this may be was a question of wide divergence of opinion, some members expressing belief that the treaty would be a daily topic of discussion until some time in November.

RETURN FROM STAY IN NORTHERN STATE

Mrs. J. C. Fairbank, Miss Georgia Fairbank, S. A. and A. D. Fairbank have returned by automobile from Old Michigan, Mich. They started Wednesday and arrived Saturday night. The roads were good during all the journey until they struck Illinois, and they had a very dusty time thereafter.

MOTHERS AND FRIENDS ASSOCIATION

The social of the Mothers and Friends Association that was to be held at the home of Mrs. R. S. Dye, 316 Walnut street today has been postponed until Tuesday, the 23rd.

PURCHASED RESIDENCE.

George W. Hamilton the well known barber has purchased the residence property of Mrs. Henry Ricks, 419 East North street.

Gen. Pershing Settles Down To Office Routine

WASHINGTON, Sept. 15.—After a round of parades and ceremonies of reception or farewell which have occupied him ever since he started home from France, General Pershing settled down to office routine again today at headquarters here of the American expeditionary forces. His day was devoted to callers or correspondence of an official character and tonight he went to the theater.

A large suite of offices has been assigned to General Pershing and a corps of officers and men marked with the sleeve badge of American expeditionary force general headquarters, was busy there unpacking papers and records shipped from Chaumont, France, where the office was established until the last American fighting division, the First, had embarged for home. It will take some days for the office staff to get settled down since the parade of the first division on Wednesday and the congressional welcome to General Pershing on Thursday will break up the week. The general is already making headway with matters that need his urgent attention, however, preparatory to his first complete vacation since months before he led the pursuit into Mexico after Villa, in 1916.

Members of General Pershing's staff said he would not take up details of his vacation until preparatory work on his final accounting for his great task abroad is well under way. He then will decide as to what invitations he will accept but it is said he is enxious to put aside for a considerable time all ceremonies and enjoy relaxation.

Two Members Of Wilson's Party Meet Death

PORTLAND, Ore., Sept. 15.—An automobile containing members of the party accompanying President Wilson on a scenic trip over the Columbia Highway near here today overturned, killing two men and injuring three.

The dead are:

Ben F. Allen, member of the presidential party and Washington correspondent for the Cleveland, Ohio, Plaindealer; James R. Patterson, Portland, Ore., driver of the automobile, and the injured are: Stanley Robinson, Washington correspondent of the Baltimore Sun; Robert T. Small, Washington correspondent for the Public Ledger, Philadelphia, former superintendent of the Southern Division of the Associated Press, and Arthur D. Sullivan, Portland, Oregon, news writer. Allen and Patterson were killed outright when the heavy automobile being turned aside to escape another automobile in its path overturned, pinning them underneath. The car righted itself after turning over.

Small, Reynolds and Sullivan were riding in the tonneau. Small, who was on the upper side was thrown clear and escaped with painful bruises and lacerations.

MEET AFTER MANY YEARS

Albert Beebe of Indianapolis is here for a visit with his brother, S. E. Beebe, at the home of Alderman John D. Cain. The two have not met for more than thirty years and it can well be imagined that they find much in the way of reminiscence to interest them. The visitor was accompanied by his daughter, Mrs. Nancy Wright.

MISS PLETCHER HOME

Miss Louise Pletcher, daughter of Dr. and Mrs. E. L. Pletcher of West College avenue, returned home last evening after attending the wedding of a school friend at Gibson City, Ill. Miss Pletcher sang a solo at the ceremony.

RETURN FROM VACATION

Dr. and Mrs. A. M. King have returned from a vacation trip of ten days which was spent in New York and Canada.

DEATH TOLL HIGH AT CORPUS CHRISTI

Many Residents of Ill-Fated City Are Washed Out Into Neuces Bay by Waves—City is Without Lights, Without Water and Food Supply is Insufficient—Most of Damage is Done by Tidal Wave—Military Rule is Put Into Effect Monday Afternoon.

CORPUS CHRISTI, Texas, Sept. 16.—With its dead numbering at least twenty-five and more than fifty persons known to be missing, Corpus Christi early today (Tuesday) was devoting its energies principally to giving relief to the 3,000 persons made homeless by the ravages of the tropical hurricane that flooded ths city on Sunday.

The first relief train to reach the city arrived at midnight loaded with foodstuffs and other supplies from Kingsville and Rolstown. Red Cross workers immediately took charge of reliief measures and it was said there probably would be little further suffering, as ample supplies have been assured from other sources.

The missing include:

Captain B. M. Egeland, Company I, 37th infantry commander of the army rest camp here, and thirty-five members of Company I of the rest camp personnel.

No word has been received from Port Aransas or Aransas Pass up to a late hour Monday night but reports from Port Aransas late Sunday were that practically all the residents of that place had been removed to the mainland and that only the life saving guard was left there.

Soldiers took over patrol of the city, and Monday night five Mexicans and an American were arrested for alleged looting.

The launch Waldo, with fifteen persons aboard, four of them women, left Corpus Christi Saturday afternoon for a fishing trip at Port Aransas it became known this morning. No word has come from the party since the storm.

Sends Appeal for Help.

The city is in distress and Mayor Gordon Boone has sent this appeal to Governor Hobby at Austin:

"Please send at once two companies of national guard with supplies and join in an appeal for financial assistance. Condition here deplorable and immediate help needed."

At least a score of people are floating in Neuces bay tonight, where they were washed out by the waves. They were clinging to spars and debris and what few boats were left undamaged by the storm were being used tonight to recover them.

The city is without water. There were no lights or gas tonight and the feed supply was insufficient. Unless help reaches here tomorrow morning there will be serious suffering, it is feared.

The railroad to the causeway has been washed away but the town can be reached from the west. Word was received tonight that a train is coming north from St. Louis, Brownsville and Mexico. It was believed supplies could be sent from Laredo.

The north beach residential section of the city has been swept clean, except the Spohn sanitarium, the United States Public Service hospital, which was occupied by thirty-seven soldiers sent here for treatment, and one frame dwelling. The residence section on the hill was slightly damaged and a few houses were unroofed.

The damage was caused mostly by the tidal wave driven in from the north by a gale estimated at from 65 to 70 miles an hour. The official record of the tide places it at ten feet, six inches deep, but many say the water was fifteen feet in depth on the beach.

Streets in the business district were flooded and while the water has receded tonight, they are filled with debris.

Receive Twenty-three Bodies.

Houston, Texas, Sept. 15.—A message stating that the bodies of twenty-three persons who lost their lives in the gulf surricane had been recovered at Portland, a small town seven miles from Corpus Christi, and that others were being recovered was received here tonight from Kingsville, Tex. by Mayor A. E. Ameriman. The message asked that undertakers be sent to Portland to assist in burying the dead. Three local undertakers immediately left here for Portland.

Orders Train Sent.

San Antonio, Texas, Sept. 15—General Joseph T. Dickman, commander of the southern department, ordered a relief train sent to Corpus Christi tonight. The train will carry tents, cots, blankets, medical supplies and several thousand cases of foodstuffs.

Relief Train Arrives.

Corpus Christi, Texas, Sept. 15—A relief train from Kingsville and Robtown loaded with food and other supplies, arrived here at midnight and its contents were turned over to the Red Cross workers, who were in charge of relief measures. A score of persons in search of relatives were aboard the train, but they were not permitted to leave the cars.

Boston Workers General Strike May Be Averted

BOSTON, Sept. 15. — There were grounds for hope tonight that a general strike in sympathy with the police who quit their posts last Tuesday would be averted. These were found largely in the statement which favored recourse to the courts in an effort to have the strikers reinstated.

Frank H. McCarthy, New England organizer for the American Federation of Labor and President Michael J. O'Donnell of the central labor union in a formal statement tonight justified the action of the police in striking and pointed out the commissioner's Curtis responsibility for the lawlessness that ensued. They also pointed out that commissioner's rule forbidding the affiliation of the police with the American Federation of Labor wa snot promulmagated until after a charter had been sought.

Meantime the recruiting of a new police force is proceeding expeditiously and the first of the new men in training will appear on the streets next Monday. With the state guard and the volunteer police on duty until the new department is thoroly organized it is believed that the city will not see a repetition of the disorders at least unless a general strike is declared.

MAIL PLANE FIRES TWO RESIDENCES

CLEVELAND, O., Sept. 15 — Two houses were destroyed by fire today when a government mail plane bound for Chicago frem here crashed on their roofs in an effort to make a hurried forced landing, causing the gasoline tanks of the plane to explode. Pilot E. V. Gardner, flying the machine, escaped injury by leaping just before the crash and later started for Chicago in another plane with what mail could be rescued from the flame.

DECLARES DIVIDEND

Independence, Kas. Sept. 15 — The Prairie Oil and Gas company today declared a quarterly dend of $3.00 per share and an extra dividend of $5.00 payable Oct. 31 to stockholders of record Sept. 30.

STRIKES SETTLED

Marseilles, Sept. 15. — The strike of dock laborers and the general strike which resulted from it have been settled according to announcement here this morning.

WOMEN AS OFFICE HOLDERS

In Missouri Democratic suffrage leaders are making an effort to prevent Democratic office holding women at the state capital and in other cities from capturing the state committee of Democratic women. This situation well emphasizes the developments in the politics of the day. With suffrage well on the way it behooves the politicians of both parties to beware in this matter of office holding. Women while new to politics, with their adaptability and the lead that sex gives them, will be very formidable as political candidates.

MR. REEVE A MODEL PYTHIAN

John J. Reeve is a candidate for supreme representative before the Grand Lodge Knights of Pythias in session this week in Bloomington. Mr. Reeve is past grand chancellor Knights of Pythias and his splendid record with the lodge has certainly entitled him to the recognition that he now seeks.

During the term he held the highest office in the gift of the state lodge Mr. Reeve devoted himself unreservedly to the interests of the order, with the result that Pythianism was greatly strengthened and the good name of the order increased. Those who know Mr. Reeve intimately are well aware that he carries out the principles of Pythianism in his daily contact with men, whether or not they are members of the order.

GEN. PERSHING SHOWS COMMENDABLE MODESTY.

Gen. Pershing thus far has shown most commendable modesty while honors are being showered upon him by admiring Americans. A certain indication of character poise is the ability on the part of "heroes" to maintain their great regard for the home friends and the earlier surroundings. In his addresses and his conversation in New York and Washington Gen. Pershing has referred a number of times to the fact that his early home was in Laclede, Mo., and that there is no city that can quite compare with Laclede. In a sense he has spoken facetiously but nevertheless the phrase is significant and gives the measure of the man. The general has not been carried away from his mooring by fame or worship.

JAPAN MUST HAVE ADDITIONAL SPACE.

There are those who look upon Japan as the greatest menace to world peace and the source of the greatest danger to the U. S. in the days to come. It is a fact that there is uncertainty as to just what will happen in the case of Japan in the next fifty years for it is an acknowledged fact that the population grows so rapidly that there must be additional space to keep from absolute overcrowding. The population there has doubled in about fifty years and with this same percentage of increase there must be an overflow into some other area.

A writer in a Japanese paper has suggested that if immigration to the U. S. is to be prohibited that this country should be prevailed upon to part with the Philippines to Japan and that Holland might be willing to relinquish its rights to the Dutch Indees. Whether or not Japan is unfriendly, the mere facts about population go to prove that there is a Japanese question in which this country is greatly interested.

A REPUBLICAN PROPOSAL

To Senator Miles Poindexter, of Washington is to be credited the first move in attempting to bring capital and labor together in conference, and to him should go the credit for its initiation. As long ago as June 17th he introduced a resolution in the senate for holding this conference, and many of the conferees proposed by him in the resolution are now on the president's list of those who will be requested to attend.

Mr. Wilson had been abroad nearly seven months when Senator Poindexter introduced his resolution, and, according to the president's own confession, he has gotten out of touch with conditions at home. An attempt is now being made by the administration, thru the medium of its vast press agency, to take unto itself credit for having suggested and brought about this conference between capital and labor, and doubtless, whatever good may be achieved by the conference will be credited to Mr. Wilson—by his publicity writers. But the fact remains that the idea was of Republican origin. Mr. Wilson appreciated its value.

PEDESTRIANS SOMETIMES ERR.

The effort to have traffic ordinance enforced is well worth while. The purpose is thru a campaign of education to have the people first of all understand the laws' requirements, and then to observe them. There are many violations that come thru ignorance of the law and those most interested in the present movement believe that education will do the work. While considering the sins of ommission and commission made by the drivers of automobiles, it may be well occasionally to think of the carelessness on the part of pedestrians.

It is an every day occurrence to see men, women and children in the business district crossing streets amid-block, that is not at the regular crossing. It is probable that very few of these pedestrians know when they take such action that they are not within their rights and that if they were struck by an automobile the legal fault would be their own.

There are some other rules and laws with reference to pedestrian travel that it may be worth while to call attention to, so that the public may know that there are rules governing those who walk just as well as those who ride and drive. All these laws are good and all relate to traffic.

AN UNSUNG HERO.

Herbert Hoover has returned to the U. S. after more than four years of most strenuous work abroad. No special honors were shown him the day of his immediate return but the American people and the world at large feel a sense of indebtedness to him. Mr. Hoover has been at times criticized, evidently unjustly, and has been commended often. The St. Louis Globe-Democrat has the following paragraph of editorial praise with reference to him:

"There landed in New York, Saturday, from the liner Aquitania, a man whose work has done perhaps as much to bring peace to the world as that of any other single man, not excepting President Wilson or Gen. Pershing. No acclaiming throngs lined the streets as he passed from steamer to hotel No bands greeted him with triumphant music. No reception committee of high officials and leading citizens of his native state stood on the dock to welcome him. No banner headline streamed across the front pages of the newspapers of every city of the land, announcing his arrival. Only a small press dispatch told the people of the United States that Herbert C. Hoover had again set foot on the soil of his native land.

"It is impossible to estimate the effect the organizing and executive genius of this man had upon the conduct of the war.

"It was a wonderful work Herbert C. Hoover accomplished in Belgium, in France, in Italy, in Servia, in the neutral states on the verge of being forced into the war to live, but especially in our own country, in creating, organizing and controlling a universal sentiment of self-sacrifice and labor in the saving and production of food. But there is no military glory attached to it, nor waving of flags, nor fanfare of trumpets. Like a modest American citizen, he returns unostentatiously to his home at the end of his labors, to pass quietly into the obscurity which awaits all but the military and political lights of the great war."

GIVE A LIFT

When I'm chugging in my motor, up and down the countryside, and behold a weary voter, I remark, "Get in and ride." And he always looks so grateful that, in sooth, I wonder why any man should be so hateful as to pass a walker by. All day long the cars go skiting up and down the dusty pike, and few drivers are inviting weary Pete or footsore Mike; and these weary men are heaping curses on the idle rich, as from danger they go leaping to the bottom of the ditch. I repeat this simple motto, as along the road I drift: "When you're riding in your auto, give the weary jay a lift." Oh, my car is large and roomy, seven delegates 'twill seat, and I call the pilgrims to me, saying, "Ride and rest your feet." And it fills my heart with gladness, and it makes my bosom glow, when I rescue from their sadness seven delegates or so. In my car I'm grand and stately, like a monarch on his throne, but I'd loathe and hate me greatly, if I rode there alone, while a lot of weary fellows labored in the dust and heat, breathing through their leaking bellows, weeping o'er their aching feet. I keep saying while I'm skidding in my wagon large and swift, "Selfishness is most forbidding—give the other chap a lift."

Pointed Paragraphs

President Wilson has yet to fall back on "That bird," "I'll say so," and "You said a mouthful."

The serpent in the glass may have been stepped on, but there are indications here and there that its tail is still wiggling.

There were loud cheers and long applause when President Wilson said in Minnesota that the League of Nations would reduce the probability of war 99 per cent. You can get a cheer pretty nearly every time these days, for anything over one-half of one per cent.

Occasions arise when senators prefer to give their remarks direct to the public and the newspapers instead of depending on the undeniably large circulation of the Congressional Record.

Carranza is said to be a good man at heart. The same may doubtless be said of Villa. As a pair of philanthropists they are sadly deficient in team work.

Pershing's reception puts a silencer on the old adage, 'Republicans are ungrateful."

Our idea of a hopeless liar is a person who says he never makes mistakes.

Night Captain Elliott, Col. Charles DeSilva, and a number of city officials are making up an all star nine in an effort to defeat the heavy sluggers of the Journal baseball team. The challenge has been accepted by the Journal stars and the game is scheduled to take place on the Nichols park diamond in the near future. Elliot, it is stated, will be slab artist for the city and DeSilva will perform in the shortstop position. Other "ringers" on the opposing team have not been announced.

The government is advising against speculation in farm lands, the object probably being to correct the impression that the more often a farm is sold the better crops it will produce.

Elmer Utterback, the champion slide trombone player of the Claremont band is helping J. O. Shafer husk corn.—Olney Advocate.

A lot of Claremont people may be hoping that Elmer will find an ear for music.

"Parts of my life I would forget," says a Detroit telephone operator that Detroit police have arrested as a bandit. How easily she could do it if it were a number.

What are they going to charge her with, being a bandit or a telephone operator?

Quite Rooseveltian.

Minneapolis Journal: Speaking of the deportation of alien slackers, young Teddy said: "If you won't die for this country, by George, you mustn't live off of it.' That has the true Rooseveltian ring.

Slow Descent.

Chicago Daily News: Still, it is scarcely to be expected that prices will slide down a pole like a fireman responding to an alarm. They are more likely to climb gingerly down the ladder, rung by rung.

To Make Thanksgiving Real.

Boston Transcript: But it would be pretty fine if the United States could be made mandatory over Turkey to the extent of providing each of us a fine, fat one for Thanksgiving.

We've Heard That Before.

Kansas City Times: Mexico "regrets" the attack on the American aviator. As we recall it, that was what Germany used to do every time a submarine sank an American ship.

No Vacation for Congress.

Minneapolis Journal: The president can go skyhooting all over the country, but the poor old congress whose August vacation he nipped in the bud, has to stay on the job.

Not Improbable.

Sioux Falls Press: Maybe when some of the actors who have been on strike in New York get back on the job they will find that the theatergoers also have gone on a strike.

Not Easily Frightened.

Chicago Daily News: As a man about whose head shrapnel has whistled for years, Gen. Pershing will not be frightened by the buzzing of a mere presidential bee.

A Source of Supply.

Sioux Falls Press: If the administration would only open that Democratic pork barrel in Washington, meat prices over the country would certainly take a tumble.

Unsolved.

Springfield, Mass., Republican: The class in politico-mathematics is left to struggle with the problem: How much Ireland is there to the square foot in America; and why?

Little Hope of Relief.

Iroquois Chief: If more production is the solution of the high cost of living there is no immediate hope of relief. Everybody is too willing to let George do it.

Must Like Punishment.

Omaha World Herald: There are still some persons in Germany crying for the restoration of the Hohenzollerns. Such gluttons for punishment!

Sufficient Warning.

Chicago Daily News: Bumptious Mr. Carranza should take note of what happened to one William Hohenzollern.

Would Like to Know.

Kansas City Star: But what we want to know is this: Did Marshal Foch kiss Gen. Pershing goodby?

No Division.

Baltimore American: America can not afford to divide its labor into preferred and common.

Just Man's Luck.

Washington Post: Just as the low price cyclone strikes straw lids they become taboo.

LOCAL PYTHIANS SPENT SUNDAY IN ROODHOUSE

The Pythians of Roodhouse are planning for special events to be held Thursday, Sept. 25. They are expecting visitors from a number of counties and expect to make the day notable in Pythian history. Sunday Messrs. Jewell Scott, Lon Barrows, George Wiseman and Charles Godfrey drove to Roodhouse to talk over some preliminary plans, as it is the intention of local Pythians to send down a large delegation. While there the Jacksonville men were taken by Foster Dale to visit the spring from which Roodhouse is to secure its new water supply.

PURSE CONTAINING $42 DISAPPEARS MONDAY

Paul Seymour Has Misfortune to Lose Goodly Sum of Money in Afternoon.

Paul Seymour of 323 North Clay avenue had the misfortune Monday afternoon to lose his purse containing about $42. The young man went to Luttrell's Majestic theatre on East State street. He took his pocketbook out of his pocket at the ticket window. He then had two $20 bills and two or three $1 bills. One of the latter denomination was changed for his theatre ticket. He remembers taking the change and of putting it into the purse and placing his purse in his hip pocket. He went into the show, stayed an hour or so, and upon coming out went directly to his home on Clay avenue. Reaching that he discovered that his pocketbook had disappeared. Seymour returned immediately to the theatre where strict search was made for the missing article but to no avail.

John R. Phillips paid a visit to Concord yesterday morning to see Mrs. John C. McGinnis who is ill at her home there.

"PAID IN ADVANCE" AT LUTTRELL'S THURSDAY

Gripping situations and scenes, masterful dramatic effects and an all-star cast—these are the attributes that will go to make "Paid in Advance," the new Universal super-production to be shown at the Masestic Theatre, Thursday, a picture that will remain in the memory of every motion picture devotee.

The locale of the story is the Canadian Northwest, heart of the fur country, and Dawson City, Klondike, in the stirring days during the rush to the Yukon region. James Oliver Curwood, an eminent writer of novels and magazine stories wrote the tale that inspired Allen J. Holubar, director of the production, to transpose it from the printed page to the screen.

With Dorothy Phillips playing the part of Joan Gray, daughter of a Canadian fur trapper, who is lured to the Klondike by promises of wealth; with William Stowell playing opposite the star; with Priscilla Dean, a star in her own right, appearing in an important part in this production, nothing is lacking that will make "Paid in Advance" an epic in the world of motion pictures.

More Facts About MOLINE-UNIVERSAL TRACTOR
With the Moline-Universal one man sitting on the seat of the implement has absolute control over the entire outfit and does just as good or better work than with horses. Every farmer knows that any implement at work requires constant attention. The implement is the profit maker and unless it works properly there is no excuse for the operation of the entire outfit. On other tractors one man is required on the tractor and one man on the implement. Every farmer knows the expense of the extra man will pay for the tractor. It is just as illogical to ride on the back of one of the horses and expect the implement to follow without attention as to ride a tractor and expect to operate the implement from that position. There has been good reason in the past for putting a seat on implements, for it is from this point that a man must make adjustments to meet different field conditions.
Neither is it practical to operate the ordinary tractor from the seat of the implement by means of a flexible steering rod. Such an outfit is a makeshift, is strung out and is unwieldy and cannot be backed. The steering rod is also constantly shifting and therefore causes difficult steering.
So easy is the operation of the Moline-Universal that a woman or boy can handle it. It turns in a 16-foot circle and backs with the implement as readily as it goes forward. Thru the operation of the differential brake, all heavy hand turning of the steering wheel is eliminated. This makes it ideal for work in small fields or getting into fence corners. The Moline-Universal also lifts itself out of dead furrows, and will pull loads on steeper grades than other tractors.

LARGE FORCE OF OFFICERS ON TRAFFIC WORK

Saturday night Chief Kiloran had a large number of officers on traffic duty and the result was a much better observance of the laws. The regular force was on duty on the square and the business section, while the special officers looked after the residence section.

During the evening forty automobile drivers were given first warning of violations of various provisions of the law. Many of these violations were in the matter of tail lights.

One arrest was made, T. R. Howe being taken in for speeding. He was begore Justice Opperman and was fined $25 and costs. It is said that Howe was driving at the rate of 40 miles an hour.

Chief Kiloran said yesterday that the most dangerous place in the business district is at the intersection of South Main street and the square. The chief is of the opinion that if automobile drivers using South Main street would turn off at College avenue and take either Sandy or Mauvaisterre street it would relieve conditions at this point. That route has a new wood block pavement and is one of the best in the city and is even more to be preferred than the South Main street pavement.

ELECTION ORDINANCE PASSED BY COUNCIL

PEOPLE WILL VOTE ON BONDS PROPOSALS OCT. 7TH.

Railway Company Ready to Pave on East State Street — Council to Inspect Localities Where Walks Are Sought—Many Matters of Business.

The ordinance calling a special bond election for Tuesday, Oct. 7, was passed by the city council Monday night with an emergency clause. The measure had the unanimous vote of the council. Other matters of business considered were of comparatively minor importance. Announcement was made that the Railway Company will soon pave between the tracks on East State street.

The roll call by Mr. Pyatt at 7:30 o'clock showed Mayor Crabtree, Aldermen Cain ,Flynn,. Chapin, Graff, Ehnie and McGinnis present. Before the session closed Alderman Moore and Alderman Williamson arrived.

Want Allen Avenue Walk.

A petition was presented by residents of Allen avenue asking for a sidewalk between Wolcott street and Lafayette avenue . This petition was signed by Mrs. Mary Sullivan, H. Antreter, Mrs. Henry Davis, William Quinlan, Mrs. Dale Upp, August Grospitz, C. B. Little, Mrs. Ruby Cannon Mrs. Nellie McNamara, Mrs. William Finley, Mrs. H. Antreter, Mrs. Anna Little, Mrs. M. Busey, Edward Sellers, A. McNamara, Minnie Winters, Mrs. A. J. Winters and Mrs. Charles O'Neal. This matter was referred to the public improvement committee.

There was a resulting discussion with reference to a number of sidewalks and it was stated by Mayor Crabtree that it is the intention of the council to travel all over the city in the course of a very few days to make personal inspection of the localities where walks are said to be needed.

Mr. Crabtree read a letter from Supt. Gray stating that the projecting gas pipes on Brown street which had been complained of had been removed. Mr. Gray also indicaaed a sincere willingness to co-operate for the relief of traffic on the south side of the square. Judge Samuel and the ward captains of traffic policemen will confer with reference to the South Main street cars. On the present schedule these cars frequently occasion the blocking of traffic.

Car Company Soon to Pave.

The important announcement was made at this time that Mr. Gray has the material here for the paving between the rails of the street car company's track and expects to begin the work at no distant day. It is possible that one side of the street will be closed to traffic so that space may be given for piling the materials necessary for this construction work.

Supt. Tendick of the garbage department made a report with reference to complaints that have been filed against feeding of the city hogs near the corner of Diamond street and Morton avenue. Mr. Tendick reported that the odors were not from the hog pens but from some of the refuse that had been scattered in o lot adjacent to where the hogs are kept. In the future all of this refuse matter will be taken to the city dumping ground.

Election Ordinance Passed

The ordinance providing for a special bond election on Tuesday, Oct. 7, was read with an emergency clause attached and was adopted by unanimous vote. The ordinance fixes the polling places, names the election judges and clerks, official publication being given elsewhere in this issue.

D. J. Staley was present to impress upon the council the need of a new sidewalk on East Michigan avenue.

F. C. Benson called attention to the bad walk in the 400 block on South Main street. Members of the council will visit both of these places on their tour of inspection.

The council was called to act upon a petition signed by South Prairie street residents, asking for the removal of a dog owned by Mrs. Sherman Smith and which some of the residents termed a nuisance. Mrs. Smith stated that the dog was inoffensive and that the complaint was a bit of spite work. Incidentally she displayed a tax receipt to show that she had the right to keep a dog and she questioned if some of those complaining had paid taxes on the dogs that they owned. This matter was referred to the police committee, and it is quite likely that the whole trouble will be amicably settled.

Asserts New Discovery Brings Blessed Relief to Rose and Hay Fever Sufferers

Can Make It Yourself At Home At Trifling Expense

In spite of all the doubters and scoffers, a man in Kentucky, who changed his annoying and distressing hay fever into less than a mild cold, claims most emphatically that if taken in time hay fever can be conquered or at least made so harmless that it is not even bothersome.

He gave his discovery to scores of other sufferers with the most remarkable results and has recently been prevailed upon to dispense it through pharmacists to all hay fever sufferers who still have faith that nature has provided an effective remedy for this common yet miserable disease.

And best of all this remedy costs almost nothing. Get a one ounce bottle of Mentholized Archie at any drug store, pour the contents into a pint bottle and fill the pint bottle with water that has been boiled.

Then gargle as directed and twice daily snuff or spray each nostril thoroughly.

That's all there is to it; so simple that a lot of people will say that it can't do the work but oftentimes simple natural remedies are the best as you will find after using.

If you will make up a pint and use it for a week or ten days you need not be surprised if your unwelcome yearly visitor fails to appear.

RUNAWAY ACCIDENT NEAR WINCHESTER

Mr. and Mrs. Wesley Henson and Son Injured Sunday When Horses Ran Away—Woman's Club Held Meeting — Other Winchester News.

Winchester, Sept. 15.—Wesley Henson, wife and son met with a serious accident Sunday about 12 o'clock. They had planned to go to the river and went to the home of William Taylor, as the latter and his family expected to accompany them to the river. Mr. Henson was driving two horses to a runabout and as he started out of the Taylor yard the breast harness broke, letting the tongue hit the ground and this frightened the horses.

The accident happened on the side of a steep hill and the buggy collided with the horses. They started to run and the conveyance was overturned, the occupants all being thrown to the ground. Mr. and Mrs. Henson were very badly bruised about the chest, arms and face and are both confined to their beds. The child was cut about the face and neck and bruised considerably. Dr. L. R Day was called to the Taylor home and did everything possible for the injured ones, and about 5 o'clock they were removed to their home in Winchester.

The horses were uninjured and were stopped before they had run a very great distance. The many friends of the Henson family hope for their speedy recovery.

Frank Lilley arrived Monday from Chicago to visit his sister, Mrs. Grant Mader, and family.

Mrs. Tyrrell and Mrs. Robinson arrived Monday from Champaign for a visit with friends here. Mrs. Tyrrell was formerly Miss Knapp and Mrs. Robinson before her marriage was Miss Ida Simms, and both were formerly residents here. They are being warmly greeted by their many friends in Winchester and vicinity.

Ivan Hawk and William Hawk have taken positions in the D. G. Watt dry goods store.

Enjoyed Dinner.

Charles Summers and family of Grass Range, Mont.; Luther Summers and family, Manchester; Forrest Waters and family, Winchester; all came with well-filled baskets Sunday to the home of Mr. and Mrs. Harry McCarthy. The day was spent in a most pleasant way and all went home with many happy recollections of the occasion.

Harry Kirkman has taken a position in the Neat & Leib shoe store. Mr. Kirkman has been employed in the D. G. Watt dry goods store for several years, and his many friends have missed him there but are glad that he is not going to leave Winchester. All unite in wishing him well in his new position.

News Items.

Mrs. Robert Mason left Monday gof Litchfield to visit her brother, Milton Owings and family.

Miss Margaret Priest entertained a few friends Monday at 1 o'clock luncheon in honor of Mrs. LeRoy Pape of Rockford, Ill.

Family Reunion.

Mr. and Mrs. Thomas Kirkman, Mr. and Mrs. Harry Kirkman, Mrs. Mildred Kirkman and daughter Bernice and son David, John Lashmet and wife, all of Winchester; Mrs. B. J. Kirkman of Jacksonville and George Kirkman and wife of Alexander, Chas. Stahl, wife and son Garland of Elkhart; Mrs. Mary Smith and granddaughter, Miss Mary Smith of Chicago; Mr. and Mrs. M. Van Houten and mother and Miss Grace Van Houten of Jacksonville all enjoyed a family reunion at Nichols park Sunday.

Woman's Club in Session.

The first meeting of the assembly of the Woman's club was held with the new president, Miss Bertha Miner, Monday afternoon. Miss Coleman, R. N., of Jacksonville, spoke of her experiences in Red Cross work in France and told her story in a very pleasing manner. Following this talk Mrs. S. G. Smith entertained the audience with a solo and Mrs. Parker Doan of Jacksonville made a talk on child welfare. This was followed by a symposium, "Get in the Swim," led by Mrs. David Hainsfurther.

The proposition is to put a swimming pool in Monument park as a memorial to returned soldiers. Mrs. J. C. Grout gave a short talk on the same subject.

Social Events

Farewell Luncheon at Nichols Park Sunday.

Mrs. W. P. Smith of 872 North Prairie street gave a farewell luncheon Sunday at Nichols park in honor of her daughter, Mrs. Jessie Smith Tivnen, who leaves for Los Angeles, Cal., today. WILL HAVE FOOTBALL TEAM AT HIGH SCHOOL

Sufficient Interest Is Shown by Students as to Guarantee Successful Season for Local Team —Men Will Hold First Practice at I. C. Campus This Morning

A high school football team for Jacksonville is now an assured fact.

To know that Jacksonville is going to have a team is usually synonymous with saying that the local school will have a good team, as the organizations that have represented Jacksonville high in past years have been what is known as "fighting" players, teams made up of scrappers, always out for the big end of the score and usually getting it.

For a time it was feared that the local school would not have a gridiron organization this year for various reasons.

A few days ago Principal Hopkins took the matter under advisement with the result that blank cards were given to the boys with the request that the same be taken home and filled out if the individual cared to see the school have a team this year. The principal stated that to have a team at least twenty five boys must sign up for at least two hours of practice each morning on the Illinois College campus or at other places as designated. Then there was also a blank line for the parent to sign, showing that the pupil played the game with the full consent of said parent. Already more than twenty five of these cards have been returned.

First Practice Today.

This morning Coach Raymond C. Hufford will have a squad of men out for the first practice of the year at Illinois college. Principal Hopkins is now busy arranging a schedule and making dates for games for the coming season. He believes that he will have little difficulty in this regard and that the full schedule for the year will soon will be filled.

Schools Well Filled.

Superintendent H. A. Perrin stated yesterday afternoon that many new pupils had come in during the past week and that practically every room in the grade and high schools were full, some a little crowded.

Teachers' Meeting.

Next Saturday morning from 9 to 11 o'clock the general teachers' meeting will be held at the David Prince building. All the teachers of the city are expected to be present at this time.

Health Department.

The Health Department has been busy the past week, examining and inspecting all of the children of the public schools and making reports and recommendations to the parents. This work is primarily to inform the parent the exact state of the child's health and the recommendations show whether the child needs the services of a doctor or a dentist and for what reason. Unless there is co-operation between the parents and the health department of the schools but little can be accomplished. An extra nurse has been employed during the week in this department.

Need New Building.

If one is dubious in the least regarding statements recently made relative to the need of a Jacksonville high school building a visit to the David Prince building either in the morning or afternoon will assure one that there is a very material need in this regard.

Of course the Junior High School pupils get along very nicely in the morning, there being only 300 of these students.

In the afternoon tho, the classes are rather crowded. There are at the present time about 465 students in the high school. Of this number 180 are members of the freshmen class . It is usually expected that each year the freshmen class will be a trifle larger than the class of the former year, and this expectation has been found to be correct in the majority of cases. So that we may expect that next year's freshmen class will number between 180 and 200 students. You can picture how the high school building will be populated with students in the next three or four and the next eight or ten years. So that in the erection of a building the board and the people of the city must build for the future generation, not alone for present needs. And speaking of needs again, the present need for a high school structure is great.

Senior Class Election.

At the senior class election the following officers were chosen for the ensuing year:

President—Florence Chapin.
Vice President—Don Ransdell.
Secretary—Verne Smith.
Treasurer—Ivan Smith
The class officer is Miss Minnie Balcke.

B. Y. P. U. INSTITUTE AT BAPTIST CHURCH

Session Monday Was Fraught With Great Interest—Program for Today.

It was truthfully be said that all persons interested in the welfare and religious education of the young are missing something unusually fine and uplifting by not attending the Sunday school and young people's institute at the First Baptist church. The principal speaker is Rev. Louis H. Koehler, state director of Sunday schools and young people's work and he is indeed what would be fairly termed a live wire in the best sense of the word. He is afire with the importance of his work and he knows how to discuss it. To hear him once makes one eager to go again; his manner is attractive and earnest without sensation and his words are helpful.

Sunday Services.

Sunday morning began with visitation and observation in the Sunday school and this was followed by a sermon on the Sunday school as the field of the church. The speaker told how important it was to begin when the mind is young and plastic and ideas are more easily implanted and then follow up the good work as the child advances in years. At three in the afternoon was a conference with Sunday school and young people's workers which was in the nature largely of a round table when questions were asked and answered and much useful information given.

At 6:30 came visitation and observation of the young people's society and at night an earnest discourse on the church's need of youth. That was a fine effort the speaker dwelling on the great importance of having the young connected with the church that their young spirits might keep awake and alive the older; impart vigor, youthfulness, progress and advancement in the work.

At four yesterday afternoon Mr. Koehler gave a beautiful talk on "The Child in the Midst." He told touchingly of the one child without sin and how we may all have Him with us if we so desire honestly and seriously. He told how the Master answered the disciples who asked Him who would be greatest in the kingdom. He put a little child in the midst and told them they must be like this little one if they expect to enter Heaven. A useful conference followed.

Youth's Awakening.

In the evening Mr. Koehler delivered a stirring discourse on "Youth's Awakening." He read the beautiful story in Luke telling how the child Jesus tarried behind when the caravan for Nazareth started home and how his anxious parents sought Him sorrowing and how His mother even chided Him for thus tarrying; how He was surprised that they should have sought Him anywhere else for did they not know He should be about His Father's business.

He then said in brief: This world is not a museum, it is a drama. There are things to be learned by us and followed in our lives. We get much from life when we give much and we are judged by what we have given. The teacher of a Bible class has a noble opportunity to lead souls and win them for Christ and a good deed or idea implanted is never lost. If I could put into a class of six pupils the right spirit thruout I would be happy indeed for they would each win six and so the work would increase. Our great work is to give a vision. There are three periods of which I wish to treat:

Childhood,
Youth.
Adulthood.

Fraught With Responsibilities

Youth is fraught with the greatest responsibilities and is the most critical time of life for then it is that largely character is formed for life. If we do not understand youth we fail. I regard youth with admiration and reverence. What a wonderful awakening a youth has as he merges into manhood. Youth is a wide, deep river dividing childhood from manhood and must be crossed without bridge or boat. It is broad and turbulent. The waters bear one up not without effort and they bear on from childhood nearer to Heaven.

The Savior was surprised that His parents sought Him anywhere else than in the temple. He had been taught from manhood to love and reverence all that pertained to it. In childhood one obeys unquestionably but the time comes when he must decide what is right. The soul of the youth is incessantly active and self conscious. We are obeying the command to multiply and replenish the earth and Heaven too.

DR. BLACK TALKED AT GRACE CHURCH

Tells of Work of Red Cross Commission in Greece — Gives Great Praise to Greek Nation.

A large and appreciative audience greeted Dr. Carl E. Black at Grace church Sunday evening when he spoke on the work of the Red Cross, especially that in which he and his company had a part. He paid a high tribute to Col. Edward Capps whose knowledge of the language and general financial ability were of greatest value in his capacity of head of the expedition. A short report of his excellent address is offered.

The different departments of the work were managed by the expedition whose especial work was military relief and hospital service. One very prominent and important work was the factory for the production of artificial limbs enabling many a man minus an arm or leg to accomplish a great deal. For this place many experts were brought from the United States. The Greeks are greatly advanced in this especial work and do a great deal for unfortunate men who have suffered the loss of limbs.

It was often necessary to negotiate with the Greek government and the officials were always found ready and willing to do all in their power for the work and cooperated cordially.

There is one trait of the Greek nation that is especially praiseworthy and that is the grand loyalty of the wealthy no matter where they may be situated or how long they have been away from the fatherland. Every Greek of means feels it his duty and privilege to do something for his native town or vicinity and the sums thus given are very large. Many civic hospitals are thus endowed and built.

Where they are unable to give a hospital or help endow one they often give their native town a fountain; not a mere ornamental gusher, but a place where all may secure plenty of good, wholesome water. In all this matter they set a very commendable example.

The city of Athens has thus been much beautified and adorned. The great stadium, copied from the one of olden times, was the gift of wealthy Greeks most of whom had made their money and lived elsewhere.

It was from October till May before our supplies arrived from the U. S. and we started many shops in which we employed worthy Greek women making garments of materials we bought there. Greece abounds in hospitals owing to the generous patriotic spirit of her men of means but they were pitifully short of almost everything requisite, cotton, hypodermic needles, anesthetics and many other things for which they besought us.

I urge a sympathetic feeling for the noble Greeks who are striving to regain their lost supremacy. From the once proud position she once held she dwindled down to a country of two millions. Now she is on the upgrade with several times that number and are heroically struggling on and up.

The royal family and royalists are getting their deserts. The exking and queen are in Switerland, some are on islands and guarded; some in prison; some have been executed and some are awaiting the hangman's labors.

The people have a deep love and reverence for the church but, sad to say, the clergy do not merit much respect and the people have little use for them. They seem to be under the baneful influence of the royalists and will have to be converted or, better, removed. This is one of the tasks confronting their great leader, Venizelos, one of the grandest characters in Europe today.

COLLEGE OF MUSIC NOTES

Enrollment in the College of Music this year promises to be one of the largest in the history of the school. Rehearsals by the various musical organizations will be resumed in the near future. The Madrigal club, supported by the college orchestra, promises an interesting program. The outlook for the orchestra is especially bright. Mr. Pearsons will be the conductor.

Mrs. Kolp will spend the winter in study in Chicago. Her work in the theoretical department will be carried on by Mr. Pearson and Miss Moore.

Miss Robinson has returned from her study with Percy Grainger and Rudolph Reuter in the Chicago Musical college.

Mrs. Hartmann spent the summer in Fond du Lac, Wis., and in Chicago.

Miss Lazelle has returned from an extensive concert tour in the west. She appeared under university extension auspices, singing at colleges and normal schools from Dakota to Washington and California.

Miss Hay passed the summer at Bay View, Mich., and other northern points.

Miss Moore spent the summer term in study with Carl Steckelberg, in Lincoln, Neb., later visiting at Old Mission and Chicago.

Miss Bernice Holnback, a student in violin at the College of Music, recently played with great success at the opening meeting of the Woman's club of Greenfield.

Miss Myrtle Shepherd, who formerly taught in the piano department, is now engaged in teaching in a school in Los Angeles. Miss Mary McGhee will fill the vacancy caused by Miss Shepherd's departure.

BACK FROM THE NORTH.

S. A. Fairbank has returned from a well enjoyed trip to Old Mission, Michigan, coming back by auto. A great many autos travel in the Wolverine state and one sees many signs in towns saying "10 or 15 miles an hour, penalty," but the city of Three Oaks, was different. It had conspicuous large signs posted on the principal streets at the entrances to the place and the one arriving would see on his side of the board, "Three Oaks, Welcome, Please." and on the reverse side for ones leaving are the words, "Come Again; Thank You."

Some villages in the west and south largely maintain public expenses by oppresive and senseless rules regarding autos. One has rought spots in streets calculated to extinguish a rear light and the innocent offender is compelled to pay a penalty. A well known gentleman traveling south was held up in this manner in one place for thirteen dollars.

LEWISTOWN OFFICIALS ARREST PEORIA WOMAN

W. W. Wolfe of Beardstown Issues Warrant, Alleging Wife Ran Away from His Home with Their Daughter—Case Attracted More Than Usual Interest in Cass County.

Mrs. Clara Wolfe, who is alleged to have left her husband and home in Peoria and eloped with a Clarence Morey, who was sought thruout Cass county by police officers, and regarding whom the Journal recently carried a notice, is now under arrest and confined in the county jail at Lewistown, according to the following from the Canton Ledger :

"Mrs. Ada Wolfe of Peoria and Clarence Morey were arrested early this morning by Officers C. E. Laughery and Charles Hagerman of Cuba. The arrest was made near White's ferry, on Spoon river, where the couple had camped all night in company with Mr. and Mrs. Pete Morey and Mrs. Wolfe's little daughter.

"They were all brought to Canton this forenoon and later taken to Lewistown to await a hearing set for 10 o'clock next Tuesday morning before Judge Wessling in this city. Mrs. Wolfe and Clarence Morey are being held in the county jail.

"The warrant was sworn out by W. W. Wolfe, husband of the woman, who, he alleges, ran away from his home in Peoria with their daughter."

You Need Not Suffer from Catarrh

But You Must Drive it Out of Your Blood to Get Rid of It Permanently

You have probably been in the habit of applying external treatments, trying to cure your catarrh. You have used sprays, washes and lotions and possibly been temporarily relieved. But after a short time you had another attack and wondered why. You must realize that catarrh is an infection of the blood and to get permanent relief the catarrh infection must be driven out of the blood. The quicker you come to understand this, the quicker you will get it out of your system. S. S. S. which has been in constant use for over fifty years, will drive the catarrhal poisons out of your blood, purifying and strengthening it, so it will carry vigor and health to the mucous membranes on its journeys thru your body and nature will soon restore you to health. You will be relieved of the droppings of mucous in your throat, sores in nostrils, bad breath, hawking and spitting.

All reputable druggists carry S. S. S. in stock and we recommend you give it a trial immediately.

Doctor Issues Warning and Tells How to Stop Tobacco Habit

New York: Dr. Connor, formerly of Johns Hopkins Hospital says: I am often asked if I know anything to stop the tobacco habit and I always recommend Nicotol, which I have prescribed with great success. Nicotol contains no habit-formnig drugs, is absolutely harmless and produces astonishing results in a very short time. The use of tobacco saps the vitality, vim, vigor and ambition of the slave who is enthralled by its seductive effects. It undermines the health and leaves the victim an easy prey to general debility, throat and lung troubles, nervousness, insomnia, heart trouble, kidney trouble, headache, tongue and lip cancer and even blindness. Physicians the world over often trace the start of the above diseases and many others to nicotine poisoning.

If you want to free yourself from tobacco go to any drug store and ask for Nicotol tablets. Take one tablet after each meal and in a short time you will have no desire for tobacco—the craving will have left you. With the nicotine poisoning out of your system your general health will quickly improve.

Note — When asked about Nicotol tablets, one of our leading druggists said: "It is truly a wonderful remedy for the tobacco habit; away ahead of anything we have ever sold before. We are authorized by the manufacturers to refund the money to every dissatisfied customer, and we would not permit the use of our name unless the remedy possessed unusual merit." Nicotol tablets are sold in this city under an iron-clad money-back guarantee by all up-to-date druggists, including Armstrong's Drug Stores. — Adv.

COMBINATIONS SHUTOUT INDEES

Pekin Aggregation Hand Locals Basket of Goose Eggs—Claude Allows But Three Hits.

For the first time this season the Independents were given a shutout by the Pekin Combinations Sunday afternoon. However, some weird baserunning helped as the locals should have scored in the seventh inning and might have gone on and won the game.

Claude, who won from the Indees a week ago, was in fine form again yesterday. This hurler has given the locals more trouble than any left hander, or, for that matter, any right hander who has faced them this season. Sunday he allowed the locals three hits. One of these, an infield single, was the result of Claude's failure to cover first base on a bounder to Bennett.

White also pitched a fair game for Jacksonville. He allowed four hits, one of them a double. However, they were mixed with bases on balls and were responsible for the visitors' runs.

White walked eight men and struck out eight, while Claude walked four and struck out eight. The visitors' first run was the result of a walk and that was enough to win as after events proved. However, three more counts came in the sixth on one hit.

Christopher caught a good game and Simms played a great game at first. The locals negotiated two double plays at times when fast playing was needed to hold the Combinations away from the counting station.

The locals had one chance to score in the seventh and might have started a rally that would have won the game. Simms beat out an infield hit and took second on Riggs' single to center. Smith grounded out to Bennett and both runners advanced. White walked but Simms for some unknown reason started for the pan and was tagged out. With three men on and the head of the batting order coming up the locals might have made several runs and perhaps enouth to either tie or win.

How the Runs Were Made.

The Combinations scored first in the third. Ballsinger, first up, walked and went to second on Vedel's single. Both runners moved up on Dittmer's out Ruble to Simms. White uncorked a wild pitch and Ballsinger scored.

In the sixth Ballsinger walked. Vedel flied to Mahan. Dittmer hit to Mahan and Ballsinger was out at second, Dittmer reaching first. Claude walked and Petri doubled to center scoring Dittmer and putting Claude on third. Riggs muffed Callahan's fly and Claude and Petri scored. Young struck out. The score:

FROM CHERRY-BLOSSOM LAND

The Japanese Give Good Example

It is a proverb of Cherry Blossom Land that beauty of face and figure depend on womanly health.

What is it that makes our American women often pale sallow-faced with dark circles under the eyes, and very often old at forty-five when they should be in their prime.

Women suffer in girlhood from backache, spine-ache and headaches, followed by irregularities and as a result disease of the womanly organs are more common than any one but a physician in active practice could suppose.

After long experience in the treatment of women's diseases, Dr. Pierce evolved a vegetable tonic and corrective which he called Dr. Pierce's Favorite Prescription. This is a purely vegetable preparation without a particle of alcohol contained in it.

When a woman complains of backache, dizziness or pain—when everything looks black before her eyes—a dragging feeling, bearing-down, with nervousness, she should turn to this "temperance" herbal tonic. It can be obtained in almost every drug store in the land and the ingredients are printed in plain English on the wrapper. Put up in tablets or liquid. Dr. Pierce, of Invalids' Hotel, Buffalo, N. Y., will send a trial size of the tablets for ten cents.

Pitcher Zinn Pinch Hitting Drives Ball Out of Lot With Two on Base—Sox Win on Jackson's Triple and Felsch's Sacrifice Fly.

Philadelphia, Sept. 15.—Pitcher Zinn pinch hitting in the ninth inning today drove the ball over the right field fence with two men on bases, making Philadelphia's total one short of tying Chicago. Then Jackson backed up against the bleachers and caught Styles' long drive, Chicago winning 11 to 10. Chicago's winning run was scored on Jackson's triple and Felsch's sacrifice fly.

WILL HOLD PLAY FOR GOLF CHAMPIONSHIP

Charles F. Thompson, President of the Western Golf Association Has Sanctioned Holding Play to Decide Illinois Championship.

Chicago, Sept. 15.—President Charles F. Thompson of the Western Golf Association today sanctioned the holding of an Illinois Golf Championship, and for the first time Illinois is to have a golf champion. An open meet will be held at the Flossmore Country Club on October 1st and 2nd, at 72 holes medal play. A gold medal will go to the winner and a silver badge to the runner up. Any golfer in the state may enter for a fee of $10, and a large prize list will be offered, including a trophy for the leader of each flight of eight, into which the field will be divided at the end of the first thirty six holes and a prize for the best round each down.

SHARP RALLY IN CORN MARKET

Chicago, Sept. 15.—Signs that for the time being liquidation was at an end brought about a sharp rally today in the corn market after new crop deliveries had fallen to the lowest prices yet this season. The close was strong, half cent to 2 1-2c net higher, with September $1.37 1-2 and December $1.20 1-8 to $1.20 1-4; oats finished 1c to 1 5-8c up, and provisions varying from $1.50 decline to 40c advance.

The day was almost half over before bullish influences had any noticeable effect on corn. Upturns in the value of hogs were also temporarily ignored. During the rest of the day the buying side was the favorite.

Oats swayed with corn. Considerable notice was taken of the Hoover statement that export business was a matter of credits.

Seaboard buying of lard gave strength to that commodity but only partly overcame weakness of pork and ribs.

MISS INEZ HUCKEBY TO SPEND WINTER IN MISSOURI

Miss Inez Huckeby will leave this morning to take charge of a music studio and church organ in Sikeston, Mo. The offer was quite a tempting one and inbuenced her to withdraw from the Illinois College of Music, where she was engaged to teach piano and pipe organ this year. Miss Huckeby goes with the consent and good wishes of the management of the college with which she was associated as organist.

Mrs. W. R. Huckeby will accompany her daughter this morning.

FINANCIAL AND COMMERCIAL

In the year 1913 one merchantman flying the Stars and Stripes arrived at London, the greatest port of the world. In 1914 it was the same, one merchantship of American registry in the whole year. Today, so a cablegram informs us, there are twenty-five American merchant vessels in the London docks. Since the first of July the arrivals of American ships have averaged one a day. John Bull is said to be amazed. He is getting ocular evidence that Brother Jonathan is finding his sea legs. The cablegram calls it "an epidemic of American ships." If it is an epidemic now what will it be a year or two years hence?

Consider the egg. A restaurant concern which has branches in many cities of the United States and Canada declares in an advertisement that it uses 24,000,000 eggs a year. It is impossible to grasp the full meaning of such a number of eggs. The advertiser, in an effort to illustrate the quantity, says that the 24,000,000 would be "enough to form a giant necklace 900 miles in circumference." Whether this statement is true or not might be determined by recourse to mathematics, but it is not worth while, for the advertiser was not altogether happy in suggesting a necklace when his subject was eggs. The thought of a scrambled necklace is too gay and diverting when what the advertiser sought was to hold the serious attention of the reader. However, dismissing the necklase there is plenty of reason to consider the egg. Few persons appreciate the size and importance of the egg industry. At present the egg production of the United States approximates 24,000,000,000 a year. Today in Philadelphia eggs are worth more than fifty cents a dozen. At that rate the egg production today has a value of $1,000,000,000 a year. We have been piling up a tremendous war debt. It amounts to $26,000,000,000. The American hen, you might say, will pay off our war debt in a little more than a quarter of a century.

Four states—Missouri, Iowa, Illinois and Ohio—produce more than one-fourth of all the eggs in the United States. Pennsylvania ranks about tenth. New York, Pennsylvania and Texas raise about the same amount. Cold storage has made it possible for us to have eggs in quantity all the year round. This is the season when they pile the eggs in storage as at no other period of the year. Usually in August or September the cold-storage accumulations approximate a million cases. There are thirty dozen—360 eggs—to a case. Last year at one time the storage holdings were 1,100,000 cases, or 396,000,000 dozen eggs. If the statement of the restaurant concern is correct, that it uses 24,000,000 eggs a year, it would seem that its customers have one egg out of every 1,000 produced in America.

The Union Carbide and Carbon Company directors have declared the regular quarterly dividend of 1¾ per cent, thus quieting rumors that the rate would be raised.

Charles H. Schlacks, formerly with the Midvale Steel and Ordinance Company and the Eddystone Munition Company, has become president of the Commonwealth Petroleum Company.

An order for 200,000 tons of steel rails for the Railroad Administration has been allocated among Bethlehem Steel, Lackawanna Steel and various subsidiaries of the United States Steel Corporation.

Pierce Manufacturing Company has declared an extra dividend of $25 a share in addition to the usual $4 quarterly dividend. This is the third consecutive year that the corporation has distributed an extra $25.

United States Rubber Company stockholders have ratified a plan for increasing the capitalization from $70,000,000 first preferred and $40,000,000 common stock to $100,000,000 first preferred and $200,000,000 common.

Sale of the Chicago and Eastern Illinois Railroad under foreclosure decree at Danville, Ill., has been postponed until Dec. 9. The meeting of the stockholders of the road at Chicago at Chicago has been adjourned until Nov. 12.

The capital of the Kerr Lake Mines, Ltd., has been reduced from $3,000,000 to $2,400,000 by cutting the par value of each share from $5 to $4. A capital distribution of $1 a share will be made to stockholders of record Sept. 13.

STOCK MARKET IS FLUCUATING

New York, Sept. 15.—Stocks moved to materially higher levels in the early period of today's broad dealings on reports that the labor unions had reconsidered their steel strike order, but part of this gain was lost later when these reports met with qualified denials. Another development which served in a measure to check the advance was the further slump of exchange rates to France and Italy, both falling to lowest quotations ever recorded in this market with German bills.

Otherwise the trend of advices over the week end was of a character calculated to sustain the substantial upward progress made in the final days of the preceding week. Industrial issues showed an increase of production of steel and iron.

Another event of interest and encouragement was the easing of time funds, these being shaded to 5 3-5 per cent as against the long prevailing six and even six and a half which borrowers were made to pay on the less acceptable collateral, call loans also relaxing moderately.

DIAMOND PRICE GOES UP

From Des Moines Register.

The high cost of getting engaged to be married is going to be worse.

Everyone knows that every well conducted engagement is sealed with a solitaire diamond. A young man in this day and age has to show his diamond as well as his devotion to the lady of his heart's desire. No diamond, no wedding.

And the cost of diamonds is going up this fall. Jewelers say there will be an increase in their cost of at least 25 per cent.

It's all because the diamond cutters have asked for a 25 per cent increase in salary, and the new salary goes into effect at once.

PIONEER RESIDENT PASSED AWAY SUNDAY

John P. Smith Dies at the Age of 84 Years—Had Resided in This Vicinity All His Life—Funeral This Morning.

John P. Smith, one of the pioneer residents of this section died at the home of his daughter, Mrs. E. W. Brown, 1042 West State street at 11 o'clock Sunday morning. He had been in failing health for several weeks and death came peacefully at the hour indicated.

Deceased was born in the Island Grove neighborhood July 25, 1835 and all his life was spent there until the past few years when he came to Jacksonville where he has lived with his daughters, Mrs. E. W. Brown and Mrs. Bess Smith Gailey. In his declining years he has received the loving care of these daughters and was given every attention that would add to his comfort.

He was united in marriage at Lexington, Ky., April 28, 1864 to Miss Anna Pauline O'Bannon who proceded him in death twenty-five years ago. To this union six children were born, three of whom preceded him in death. They were Mrs. C. C. Henry, Mrs. Anna Smith Gailey and O. N. Smith. Three survive, Mrs. E. W. Brown, Mrs. Bess Smith Gailey and Dr. J .D. Smith, all of this city.

Mr. Smith graduated from Illinois College in the class of 1856 and was the last surviving member of the class. After finishing school Mr. Smith took up the occupation of farming and stock raising. He followed this on an extensive scale and was accounted successful in that work. He retired from active business life a number of years ago and since that time has lived quietly, being a familiar figure on the streets of the city.

Funeral services will be held from the residence of his daughter, Mrs. E. W. Brown, 1042 West State street at 10:30 o'clock this morning in charge of the Rev. Myron L. Pontius, pastor of Central Christian church. Burial will be in Woodwreath cemetery in Island Grove.

We are prepared to furnish most any man with the style, color and price hat he desires. FRANK BYRNS Hat Store.

FIRE DAMAGES HOME OF DR. E. D. CANATSEY

Loss Will be About $2,000—Insurance on House None on Contents.

Fire which started in the roof by sparks from a chimney caused damage to the residence of Dr. E. D. Canatsey, 606 North Church street, amounting to $2,000.

Sunday morning Dr. Canatsey started a fire in an open fireplace to take the chill from the rooms. The soot in the chimney caught fire and the sparks set fire to the roof.

Norman Deweese, who resides next door to the Canatsey home was the first to discover the fire. Owing to the dry condition of the roof the fire had gained great headway.

An alarm was sent to the fire department by Mr. Deweese and the firemen made a quick response. They soon had water on the flames which were brought under control and confined entirely to the roof and attic.

Practically all of the furniture was removed to rooms in the rear of the residence and thus escaped water damage. The water, however, caused considerable damage to the paper and plastering in the main part of the house.

Dr. and Mrs. Canatsey were lavish in their praise of the excellent work done by the fire department. The flames had gained great headway when first discovered but the prompt response and no delay in getting the apparatus to work resulted in saving the property.

The loss on the house is estimated at $2,000 which is fully covered by insurance. Dr. Canatsey had no insurance on the contents, but fortunately there was little or no damage to the furniture and draperies, carpets and rugs.

PLETCHER LEAVES FOR M. E. CONFERENCE

Annual Methodist Meeting Will Convene in Charleston This Afternoon — District Superintendent Able to Give Good Report for Jacksonville District.

Dr. and Mrs. E. L. Pletcher expect to leave this morning for Charleston where Rev. Pletcher will be in attendance at the Methodist conference which convenes there at two o'clock this afternoon. The usual district superintendent's report was not available for publication this year for the reason that each district superintendent will not make individual report, but their reports are to be incorporated into one report and will be read as such.

Dr. Pletcher stated last evening that Jacksonville district had raised $160,000 for the centenary movement, and that the whole report for the district was an excellent one. He spoke of the shortage of ministers. He has fifty charges in this district and will probably be short two or three men. The cost of living perhaps has a great deal to do with this state of affairs, and it is impossible for a minister and family to live on the $1,000 or less that some of the charges pay per year. So that many men in justice to their families have gone into other lines of endeavor, more profitable from a monetary standpoint. The pay of the ministers in this district was raised a total of $9,000 or $10,000 last year and will this year be given a further increase, altho not so great, probably from $2,000 to $3,000.

The coming season promises to be one in which the demand for ladies furs will be even larger than former years. FRANK BYRNS Hat Store reports a big demand. The styles, prices and qualities shown will not be duplicated later.

IN ROODHOUSE ON K. P. BUSINESS

George A. Wiseman, J. E. Scott, Lon Barrows and Charles Godfrey were in Roodhouse Sunday to make further arrangements for the visit of members of the order to the big celebration to be given by Worchester Lodge of that city on September 24.

The trip was made by automobile and the visitors found that the Roodhouse knights are making preparations for a big time. Arrangements have been made to rope off the square and several adjacent streets and it is expected the event will be one of the biggest K. P. celebrations ever held in this section.

VIOLIN CLASS LESSONS

The College of Music offers unusual opportunities in class instruction for beginners in Violin. Miss Moore has spent the summer term in study with Mr. Carl Steckelburg, one of the greatest living exponents of class work. This is really an unusual opportunity for beginners to get a thorough grounding in Violin playing at a nominal fee. Those who are interested would do well to call at the College of Music Monday and Tuesday, September 15 and 16.

LOCAL KNIGHTS ATTEND PYTHIAN CONVENTION

Sessions of Order at Bloomington Expected to Attract 1,800 Delegates—J. J. Reeve in Line for High Office.

A number of Jacksonville people are at present in Blomington in attendance at the state meeting of the Knights of Pythias which opens its sessions in that city this morning. L. B. Turner and John Siebert left for Bloomington yesterday afternoon. Mr. and Mrs. J. F. Claus have also gone, as has John J. Reeve. Mrs. Reeve, who went to Chicago last week to visit relatives, went to Bloomington Sunday and will remain there until the close of the convention. Mr. Reeve is a past grand chancellor and has been serving on the legal advisory board of the state organization. He is a candidate for supreme representative of the order.

The sessions of the convention will be held at the Bloomington high school today and Wednesday. It is expected that 1,800 delegates will assemble there this morning.

Guthrie Grand Chancellor.

Edward T. Guthrie, the present grand chancellor, who succeeded in office Smith L. Von Fossen, resigned, will no doubt be elected as grand chancellor during the Bloomington meeting. Von Fossn resigned, it is charged by reason of the fact that he was criticised on account of the appointment of Paul J. B. Haverly, who absconded with grand lodge funds. It is expected that there will be considerable agitation over this matter during the meeting here. Haverly, it is charged, gat away with some $22,000 of grand lodge funds and also a war fund of $30,000 which had not as yet been turned over to the supreme lodge.

Want Heavier Bonding.

There is the contention that the bond of the grand keeper of records and seal has never been large enough. Henry P. Caldwell, deceased, was grand keeper of records and seal for a period of forty-two years and the members had such faith in him that when Haverly was appointed the bonds were not made large enough.

Candidates for Office.

Al Douglas of Decatur, appointed to succeed Haverly, will no doubt be elected to the position. Dan Ross of Benton is a candidate for grand outer guard. Louis C. Hay of Bloomington is a candidate for supreme representative. Mr. Hay is a past grand chancellor of the order and has long been prominent in Pythian affairs.

A number of other candidates will no doubt announce before the convention opens Tuesday.

ChamPaign Wants Convention

It is expected that Chicago will send a delegation of about 200 members. Next to Chicago in numbers will no doubt be the Champaign delegation. The latter city going there to land the 1920 convention and they expect to bring enough pressure to bear to land the plum.

The committee in charge of arrangements is composed of John J. Pitts, John G. Welch, C. E. Dagenhart and J. O. Tefft.

Today's Program.

The program follows:

9:00 a. m.—William H. Boyer presiding.

VIOLIN CLASS LESSONS.

Would you like your child to have the advantage of the best instruction in Violin at a moderate cost? If so, investigate the class lessons which are being offered at the College of Music. This work is something entirely new in Jacksonville. It is developed according to the method of Dr. Carl Steckelberg, probably the most sucessful teacher of class work in the United States. See Miss Moore at the College of Music registration days, September 15 and 16.
